

Subject Line: Make sure you are ready for your studies at Fuller

Dear Future Fuller Student,

Congratulations again on your acceptance to Fuller! Soon you will join a diverse group of students that are passionate about an education that equips them to serve Christ's church.

We wanted to reach out to and to let you know that there is still time for you to take action if you are interested in applying for scholarships or federal loans during the 22-23 aid year to support your studies at Fuller.

If you have not already completed the Universal Scholarship Application and are interested in applying for scholarships, we encourage you to **complete the Universal Scholarship Application** as soon as possible.

Please note: you must use your Fuller ID (*details about how to claim this are in your acceptance letter*) in order to login and complete the Universal Scholarship Application.

Once you have completed all of the necessary fields, please submit the universal scholarship application. **After our team has processed and reviewed your application you will be notified of scholarship opportunities that are available to you.** Please be sure to read through the scholarship requirements, which will inform you if any additional steps are required.

If you have questions about this application process, please contact the scholarship team at scholarships@fuller.edu.

If you are interested in applying for federal loans and have questions about how to do so, please contact the Financial Aid team at finaid-processing@fuller.edu.

We look forward to welcoming you to Fuller soon!

President David Goatley
