

Project Manager - Joshua Crooch

September 29, 2023

Fuller Seminary
Pasadena, CA

Dear Fuller,

For nearly 20 years I have been involved in graduate-level education. As Media Director at The Master's Seminary, I was directly responsible for creating, capturing, editing, posting and managing all online, distance learning and social media content.

When online education became popular, I designed coursework that was used by students prior to starting on campus. In social media, our campaigns beat the daily interaction numbers for a Seminary ten times our size for over a year.

Most of my experience has been in broadcasting, but my skills in designing studios, scheduling crews, and directing live classes all translate into meeting goals through communication, organization, and accountability across multiple teams.

I have a history of making plans, selling the vision to producers, scheduling necessary crew, ordering vital equipment, and ensuring everything works prior to deadline.

These are the skills you need for a successful Project Manager, and I look forward to talking with you about how to make that happen.

Sincerely yours,

Joshua Crooch
